The tale opens abruptly with an opium-bred vision of the tower of Cloisterham Cathedral, beheld by Jasper as he awakens in the den of the Princess Puffer, between a

Chinaman, a Lascar, and the hag herself. This Cathedral tower, thus early and emphatically introduced, is to play a great but more or less mysterious part in the romance: that is certain. Jasper, waking, makes experiments on the talk of the old woman, the Lascar and Chinaman in their sleep. He pronounces it Òunintelligible,Ó which satisfies him that his own babble, when under opium, must be unintelligible also. He is, presumably, acquainted with the languages of the eastern coast of India, and with Chinese, otherwise, how could he hope to understand the sleepers? He is being watched by the hag, who hates him. Jasper returns to Cloisterham, where we are introduced to the Dean, a nonentity, and to Minor Canon Crisparkle, a muscular Christian in the pink of training, a classical scholar, and a good honest fellow. Jasper gives Edwin a dinner, and gushes over Òhis bright boy,Ó a lively lad, full of chaff, but also full of confiding affection and tenderness of heart. Edwin admits that his betrothal is a bore: Jasper admits that he loathes his life; and that the church singing Òoften sounds to me quite devilish,ÓÑand no wonder. After this dinner, Jasper has a Òweird seizure;Ó Òa strange film comes over JasperÕs eyes,Ó he Òlooks frightfully ill,Ó becomes rigid, and admits that he Òhas been taking opium for a pain, an agony that sometimes overcomes me.Ó This Òagony,Ó we learn, is the pain of hearing Edwin speak lightly of his love, whom Jasper so furiously desires. ÒTake it as a warning,Ó Jasper says, but Edwin, puzzled, and full of confiding tenderness, does not understand.

A pop-up book opens to reveal a bed-and-breakfast populated by characters from classic works of art, from Mona Lisa in the kitchen to Whistler's mother warming herself by the fire

When danger to the sheep leaves no alternative, a young Navajo boy breaks his promise to his father and is rewarded for his courage and good judgment.

(Jazz Piano Solos). 24 fusion favorites are included in this collection featuring piano solo arrangements with chord names. Includes: Chameleon * Don't Stop * Feels So Good * 500 Miles High * Goodbye Pork Pie Hat * Mercy, Mercy, Mercy * Portrait of Tracy * A Remark You Made * You Know What I Mean * and more.

"Cinematic Motion has helped directors create a personal camera style and master complex staging challenges for over a decade. In response to the opportunities offered by digital technology, this second edition adds essential chapters on digital visualization and script breakdown."--Jacket.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart.

Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Program 3D Games in C++: The #1 Language at Top Game Studios Worldwide C++ remains the key language at many leading game development studios. Since it's used throughout their enormous code bases, studios use it to maintain and improve their games, and look for it constantly when hiring new developers. Game Programming in C++ is a practical, hands-on approach to programming 3D video games in C++. Modeled on Sanjay Madhav's game programming courses at USC, it's fun, easy, practical, hands-on, and complete. Step by step, you'll learn to use C++ in all facets of real-world game programming, including 2D and 3D graphics, physics, AI, audio, user interfaces, and much more. You'll hone real-world skills through practical exercises, and deepen your expertise through start-to-finish projects that grow in complexity as you build your skills. Throughout, Madhav pays special attention to demystifying the math that all professional game developers need to know. Set up your C++ development tools quickly, and get started Implement basic 2D graphics, game updates, vectors, and game physics

Build more intelligent games with widely used AI algorithms Implement 3D graphics with OpenGL, shaders, matrices, and transformations Integrate and mix audio, including 3D positional audio Detect collisions of objects in a 3D environment Efficiently respond to player input Build user interfaces, including Head-Up Displays (HUDs) Improve graphics quality with anisotropic filtering and deferred shading Load and save levels and binary game data Whether you‍re a working developer or a student with prior knowledge of C++ and data structures, Game Programming in C++ will prepare you to solve real problems with C++ in roles throughout the game development lifecycle. You‍ll master the language that top studios are hiring for‍and that‍s a proven route to success.
