An important resource for scholars of contemporary art and architecture, this volume considers contemporary art that takes architecture as its subject. Concentrated on works made since 1990, *Contemporary Art About Architecture: A Strange Utility* is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history, theory, and analysis. Petter Gottschalk takes a close look at how some entrepreneurs choose to develop criminal business enterprises. Stage models for criminal entrepreneurs are presented, and entrepreneurial leadership and management are discussed. This book illustrates how so many issues for entrepreneurs and entrepreneurship are similar in legal and illegal business. At the same time, all the cases in the book show how different many of the individual criminal entrepreneurs are. In sum, this book provides a pragmatic view of another kind of entrepreneurship not frequently discussed in a neutral way. This book will be warmly
