Kylene and Bob have designed these bookmarks to be at-hand guides as students closely read literary or nonfiction texts. One side contains the 6 signposts for literary texts from Notice & Note. The other side displays the 5 signposts for nonfiction texts from Reading Nonfiction. With each signpost is helpful advice on when to STOP in a text and what questions readers can ask themselves when they spot a signpost. Available in 30-count classroom packs, these durable bookmarks are printed on tough card stock to stand up to the rigors of school life.

Hudson Avery gave up a promising competetive ice skating career after her parents divorced when she was fourteen years old and now spends her time baking cupcakes and helping out in her mother's upstate New York diner, but when she gets a chance at a scholarship and starts coaching the boys' hockey team, she realizes that she is not through with ice skating after all.

Philip Baldwin and Monica Guggisberg have collaborated on a vast range of work, from tabletop designs, designing for major glass companies such as Rosenthal, Steuben and Venini and most importantly their own refined forms of pure artistic creation. This publication displays their dedication to clear form, concentrating on their most recent work in sculptural forms and objects created in a language uniquely their own, matched by exuberant colors, dominated by a sense of harmony and proportion.

Provides an overall introduction to the welding process, illustrating most of the common equipment and work techniques for both the home and shop welding.

Learning math can be a difficult task for any child, and for many adults. But learning to work with numbers need not be a dreaded experience; in fact, it can even be fun! Scott Flansburg, also known as "the Human Calculator," can help kids learn how to add, subtract, multiply and divide without the anxiety and frustration which often accompanies learning these skills. Using techniques that make numbers easy to work with and by demonstrating how math is essential to everyday life (contrary to the lament of a great percentage of students), Math Magic for Your Kids can help maximize your child's potential to understand math and enjoy it in the process. Flansburg has helped millions of "math phobic" adults with his popular lectures and best-selling book, Math Magic. Now he is reaching out to help America's "math phobic" kids. Math Magic for Your Kids makes it easy, even for those adults who suffer from math anxiety, to help the next generation get a leg up on essential math skills. The book is specifically designed to be combined with various mathematics curricula approved by the National Council of Teachers of Mathematics. Aimed at children aged 5 through 8, it can also benefit younger children who demonstrate a readiness for advanced number concepts and for older children who need reinforcement of basic math skills. For kids who struggle with simple math skills, Flansburg provides activities to "build a child's math sense" and help reinforce math concepts. Math Magic for Your Kids also contains information and anecdotes that relate math concepts to

everyday situations, explains principles that facilitate learning in general, and provides shortcut methods as well as challenging puzzles and riddles to keep kids interested and involved. Games and exercises are designed to be executed independently or with parents' help.

Don't live in fear of math any longer. Math Magic makes math what you may never have imagined it to be: easy and fun! Scott Flansburg -- "the Human Calculator" who believes that there are no "mathematical illiterates," just people who have not learned how to make math work for them -- demonstrates how everyone can put their phobia to rest and deal with essential every-day mathematical calculations with confidence. This is the book for millions of otherwise successful adults who are afraid to balance their checkbooks and don't know how to figure interest on savings or credit, and for the millions of students who dread their math classes and live in fear of the SAT math section. In Math Magic, Scott Flansburg shows the reader how to: Master the basics, including the real way addition, subtraction, multiplication, and division work Simplify calculations through estimation Quick-check answers Convert metric measures to more familiar ones Figure tips, taxes, and percentages -- never get short-changed again! Master algebra using the nine easy steps to algebra Math Magic is for all of us who need and want to improve our understanding of math. With the help of Flansburg, the Guinness World Record holder as the Fastest Human Calculator, you can do math just like magic.
